

Section C INTERNAL ORGANISATION

Subsection I Articles of Association

48. The Rules Governing Amendment to the Articles of Association (Art. 245-A/1/h) PSC)

The Articles of Association do not define any rules applicable to the amendment of the Company's Articles of Association, therefore the terms defined by the Law apply to these matters.

Subsection II Reporting of Irregularities

49. Reporting Means and Policy on the Reporting of Irregularities in the Company

Since 2004, the Ethics Committee of Jerónimo Martins has implemented a system of bottom-up communication that ensures that every employee, at every level, has access to communication channels to contact officers who are recognised within the Company with information on possible irregularities occurring within the Group. They may also make any comments or suggestions, particularly with respect to compliance with the procedural manuals in effect, especially the Code of Conduct.

This measure clarifies guidelines on questions as diverse as compliance with current legislation, respect for the principles of non-discrimination and equal opportunities, environmental concerns, business transparency and the integrity of relations with suppliers, customers and official entities, among other matters.

The Ethics Committee has informed all the Group employees of the available means to, if necessary, communicate with this body. This is possible by means of letter via freepost or internal or external e-mail with a dedicated address. Interested parties may also request, from the respective General Manager or Functional Director, any clarification of the rules in force and their application, or they may provide them with information regarding any situation that may question them.

Whichever communication channel is used, anonymity is assured for anyone who requires it.

Subsection III Internal Control and Risk Management

50. Individuals, Boards or Committees Responsible for the Internal Audit and/or Implementation of the Internal Control Systems

The Internal Audit Department assesses the quality and effectiveness of the Internal Control and Risk Management systems that are set by the Board of Directors.

The Internal Control objectives involve the assurance of the operational efficiency, the financial and operational reporting consistency and the fulfilment of applicable laws and regulations. To assure it, the Internal Audit activity plan takes in consideration the evaluation of the operational risks and the critical processes applicable to each Company.

The results of the internal audits are made available, on a monthly basis to the Internal Control Committee and to the Group's Managing Committee. Each quarter, these reports are presented to the Audit Committee. With the same regularity, a report is prepared regarding the status of the recommendations agreed with the audited areas managers.

During 2017, there were audits performed over stock management, cash collection, management of accounts payable and receivable, supplementary income, quality assurance and food safety, investments, and information systems, among others.

51. Details of Hierarchical and/or Functional Dependency in Relation to Other Boards or Committees of the Company

The head of the Internal Audit Department reports hierarchally to the Chairman of the Board and CEO and, functionally, to the Audit Committee. The head of Internal Audit is also a member of the Internal Control Committee, which in turn reports to the Audit Committee.

See organisational structure in point 21.

52. Other Functional Areas Responsible for Risk Control

a) Enterprise Risk Management System

The Group, and in particular its Board of Directors, dedicates a great deal of attention to the risks affecting the businesses and their objectives, and is committed to ensure that Risk Management is an effective and fundamental component of the corporate strategy, culture and value-creation process.

The approach to Risk Management is detailed in the Group's Risk Management Policy, which sets out the Group's Enterprise Risk Management System and outlines the roles and responsibilities of the persons responsible for its execution.

a.1) Risk Management Objectives

The aim of the Group's Enterprise Risk Management System is not to eliminate risk completely from the Group's activities, but rather to ensure that every effort is made to manage risk appropriately, maximising potential opportunities and minimising the adverse effects of risk.

The Group's Enterprise Risk Management System has the objectives to structure and consistently organise the way the Group identifies and evaluates risks, assuring that they are assessed broadly, considering dependencies and correlations among various risks areas and also promoting alignment of the process across the organization. It establishes procedures for reporting that allow for an adequate monitoring of the risk mitigation and control measures.

Due to the size and geographical dispersion of Jerónimo Martins' activities, successful Risk Management depends on the active participation of all employees, who should assume this as an integral part of their jobs, particularly through the identification, reporting and mitigation of risks associated within their area of responsibility. Therefore, all activities must be carried out with an understanding of what the risk is, with an awareness of the potential impact of unexpected events on the Company and its reputation.

The Group is committed to ensuring all employees are provided with adequate guidance and training on the principles of Risk Management, on the criteria and processes set by the Risk Management Policy and on their responsibilities to manage risks effectively.

a.2). Organisation of Risk Management

The Risk Management Governance Model is defined in order to ensure the effectiveness of Risk Management Framework and is aligned with the Three Lines of Defence Model, which distinguishes among three groups (or lines) involved in effective Risk Management, namely:

- First Line of Defence (Business Operations: Risk Owners) – responsible for the daily Risk Management activities aligned with the business strategy, and also aligned with existing internal procedures and Risk Management Policy;
- Second Line of Defence (Oversight / Compliance Functions: Group and Business Unit Risk Managers) – responsible for the Risk Management analysis and reporting, as well as for suggestions or policies development that improve the efficiency of Risk Management processes. This second line also includes functions such as Financial Control, Security, Quality & Food Safety, amongst other corporate areas;
- Third Line of Defence (Independent Assurance: Internal Audit and External Audit) – responsible for providing assurance on the effectiveness of governance, Risk Management and internal controls, including the manner in which the first and second lines of defence perform their Risk Management and control objectives.

The Risk Management organisational structure considers the following main roles and responsibilities:

- the Board of Directors is responsible for establishing the Risk Management Policy and strategy and for setting goals in terms of risk-taking. It is also the Board's responsibility to provide for the creation of control systems necessary to ensure that the risks effectively incurred are consistent with the goals set;
- the Audit Committee approves the activity plans with regard to Risk Management, monitors their execution and assesses the effectiveness of the internal control, internal auditing and risk management system;
- the CEO, assisted by the Managing Committee, ensures the implementation of the Risk Management Policy and strategy as established by the Board of Directors, as well as promotes a risk awareness culture in the organisation ensuring that Risk Management is embedded in all processes and activities;
- the Risk Committee assists and advises the Managing Committee, as the CEO's assisting body, in assessing and monitoring the mitigating measures for the different types of risk, and ensuring the existence of an effective Risk Management framework, that ensures a level of risk exposure compatible with the objectives and strategies approved by the Board of Directors;
- the Group Risk Management Division (GRM) is responsible for the implementation of the Risk Management framework, coordination of all Risk Management activities and for supporting the Managing Committee and the Risk Committee in the identification of risk exposures that might compromise the Group's strategic and business goals. GRM is also responsible for the coordination and alignment of the practices adopted by the Companies in the Business Continuity Plans (BCP);
- the Business Unit Risk Managers are responsible for the implementation of Risk Management initiatives at the Company level and to support the respective Risk Owners activities;
- the Risk Owners are all employees in charge of the execution and/or control over a given process or activity, within a business unit or a corporate structure, which are responsible for managing the risks involved in those activities;
- the Internal Audit Department focuses its work on the significant risks, as identified by management, and audits the Risk Management processes across the Organisation, providing assurance regarding the effectiveness and efficiency on the Management of Risk and active support in the Risk Management process.

53. Details and Description of the Major Economic, Financial and Legal Risks to which the Company is Exposed in Pursuing Its Business Activity

Strategic Risks

Strategic risk management involves monitoring factors such as social, political and macro-economic trends: the evolution of demographics, consumers' preferences, the life cycles of the businesses, the dynamics of the markets (financial, employment, natural and energy resources), geopolitical situation, the activities of competitors, technological innovation, availability of resources, legal and regulatory changes and social scrutiny of the Group's business activities.

The management team uses this information to understand market needs and attempts to identify any opportunities and threats in the industries and sectors in which it operates, namely in terms of potential profitability and growth, but also in terms of both the strategic alignment and appropriateness of its business model in light of current and future conditions.

Operating Risks

Derives from the execution of normal business functions, across the value chain, and focuses on risks arising from the processes through which the Group units operate.

The operational risks cover risks related to category management and sourcing, stock management, cash management, logistics and supply chain and the efficiency in the use of resources and assets as well as their safety and security.

Fraud, money laundering and corruption risks are also considered in the risk assessment for the most relevant operational activities. The adequacy and range of the controls and mitigation measures are also reviewed and reconsidered whenever necessary.

Food Quality and Safety

The Group seeks to provide healthier products and food solutions, and it seeks to ensure and enforce product safety measures in strict compliance with food safety standards.

The Quality and Food Safety Departments of the Companies are responsible for the following areas: i. prevention, through selection, assessment, and follow-up audits on suppliers; ii. monitoring, by following the product throughout the whole logistics flow, to analyse compliance with best practice and certification requirements; and iii. training, by carrying out periodic simulations and awareness initiatives.

The Companies are monitored continuously by quality control technicians, to ensure the implementation of procedures and to assess the efficiency of training and the suitability of the facilities and equipment.

Environmental Risks

Ensuring the efficient management of resources, while promoting environmental preservation, is essential for the sustained growth of the Jerónimo Martins Group's businesses. Considering the size of its Companies, the Group has been conducting studies on the impacts of such activities on ecosystems and on the services and the resources they provide, in the following areas: i. Impacts of the Group's Companies activities on biodiversity and dependency on ecosystem services; ii. Agricultural management practices focused on water and energy consumption, biodiversity and economic management; iii. Risk analysis on fish sold in Group's stores; iv. Analysis of risks and opportunities associated with the impacts of climate change on Group's activities; and v) Mapping of deforestation commodities, their origins and production methods in Private Brand products and Perishables.

As a result of the studies about biodiversity management, priority action areas have been identified, which entail practices such as training, partnerships with suppliers, and research and development.

This is the case of the work that has been developed with suppliers in Portugal which led to the publication of a Sustainable Agriculture Manual and the corporate sustainable fishing strategy that defines specific lines of action according to the identified risk categories¹.

Regarding both climate change risks and those associated with deforestation commodities, the following typologies were identified:

- Regulatory, which can be a result of increased costs of compliance with environmental legislation;
- Physical, which may result in shortage of natural resources, such as agricultural products, or disruption of supply chain activities associated with climatic events;
- Reputational, associated with expectations of the Group's stakeholders to reduce carbon emissions and contribute to tackle deforestation.

The probability of occurrence of these situations and their level of impact, including financial risks, as well as their management, are analysed by the Group as part of its risk assessment procedures. Considering the risks posed by climate change, particularly, the Group discloses its review in the annual response to CDP (Carbon Disclosure Project), for the programs Climate and Forest, which are available at <https://www.cdp.net>.

Physical Security and People Risks

The Security Department is responsible for ensuring that conditions exist to guarantee the physical security of people and facilities.

Physical security and people risk management involves defining and publicising working standards and instructions, carrying out employee awareness initiatives and training, performing audits on the stores, risk assessment in all establishments and performing emergency simulations.

Information Systems Risks

The risks associated to Information Technologies are analysed considering their different components: planning and organisation, development, innovation, operations management, information security and continuity.

The risk management of Information Security in the Group is the responsibility of an exclusively dedicated Department and consists of implementing and maintaining an Information Security Management System that ensures confidentiality, integrity and availability of critical business information, performing monitoring and control activities in order to identify and mitigate potential vulnerabilities.

Regulation Risks

Compliance with legislation is provided by the Legal Departments of the Group's Companies. With regard to the Holding Company, the Legal Department guarantees the co-ordination and implementation of strategies aimed at protecting the interests of Jerónimo Martins in legal disputes, and it also manages outside advisers.

Compliance in issues related with Personal Data is followed by the Data Privacy Department, supported by the Legal Departments of the Holding Company, of the Group Companies and the Information Security Department.

In order to ensure the fulfilment of tax obligations, the Group Fiscal Affairs Department advises the Group's Companies, as well as oversees their tax proceedings.

¹ To find out more about the actions carried out by the Group in this area, please refer to subchapters "Protecting the Environment" and "Sourcing Responsibly", respectively, in the "Corporate Responsibility in Value Creation" chapter of the current report.

Financial Risks

Risk Factors

Jerónimo Martins is exposed to several financial risks, namely: price risk; which includes interest and exchange rate risks: transactional risk, which includes credit and liquidity risk; and the risk arising from the Group's investments portfolio, including various risks such as interest rate, credit, foreign exchange, inflation, political and fiscal.

The management of these risks is focused on the unpredictable nature of the financial markets and aims to minimize its adverse effects on the Company's financial performance.

Certain types of exposure are managed using financial derivative instruments.

The activity in this area is carried out by the Financial Operations Department. It is responsible, with the cooperation of the financial areas of the Group's companies, for identifying and risk assessing and for executing the hedging of financial risks, by following the guidelines set out in the Financial Risk Management Policy.

Every quarter, reports on compliance with the Financial Risk Management Policy are presented to and discussed with the Audit Committee.

The information concerning financial risks to which the Group is exposed can be found in note 31 – Financial Risks of Chapter III of the Annual Report and Accounts.

54. Description of the Procedure for Identification, Assessment, Monitoring, Control and Risk Management

The Group's Risk Management framework assumes a continuous process of risk assessment, which is an integral part of the normal decision-making and management processes.

The Risk Management process is aligned with the ISO 31000 international standard recommendations, and seeks mainly to distinguish what is irrelevant from what is material, requiring an active management which involves the assessment of sources of risk, the probability of occurrence of a certain event, and the consequences of its occurrence within the context of the control environment.

The Group prepares and maintains an overall risk profile that lists all relevant operational and strategic risks, as well as the corresponding implemented mitigation and control mechanisms. The list is updated regularly with information from the on-going risk assessment processes.

A global annual review is made under the coordination of the Group's Risk Management Corporate Division, as part of the strategic and operational planning processes, so that the information related to the most relevant risks is duly updated and considered during the planning process. This process triggers the development of the alternatives under analysis as well as the identification of new activities that strengthen the defense of the directed objectives.

55. Core Details on the Internal Control and Risk Management Systems Implemented in the Company Regarding the Procedure for Reporting Financial Information (Art. 245-A/1/m) PSC)

The Board of Directors is highly committed to assuring the reliability of financial reporting and the preparation of the Group's financial statements. This is done by ensuring that the Group has in place adequate policies that provide reasonable assurance that transactions are recorded and reported in accordance with Generally Accepted Accounting Principles (GAAP), and that expenditures are realized only when properly authorized.

The financial reporting risk is mitigated by enforcing segregation of duties and by setting preventive and detective controls, which involves limiting access to IT systems, and a comprehensive performance monitoring system.

Additional controls are provided by the Audit Committee oversight and Internal Control Committee reliability assessments over the preparation and disclosure of financial information and by the Group's Planning and Control Department monitoring activities over the performance of each business units and in review of the deviations to the approved plans.

Subsection IV Investor Assistance

56. Department Responsible for Investor Assistance, Composition, Functions, the Information Made Available by Said Department and Contact Details

Composition

The Investor Relations Office of Jerónimo Martins is comprised as follows:

Office Manager: Cláudia Falcão

Team: Ana Maria Marcão, Hugo Fernandes and Raquel Freitas

Main Roles

The Investor Relations Office of Jerónimo Martins is responsible for communication with all investors - institutional and private, national and foreign - as well as the analysts who formulate opinions and recommendations regarding the Company. The Investor Relations Office is also responsible for matters related to the Comissão do Mercado de Valores Mobiliários (Portuguese Securities and Exchange Commission).

Communication Policy of Jerónimo Martins for the Capital Markets

Jerónimo Martins' policy for communicating to the capital markets aims to ensure a regular flow of relevant information - history, current performance and outlook for the future -, which respects the principles of symmetry and simultaneity and creates a faithful image of the Company's business performance and strategy for investors, shareholders, analysts and the general public.

The financial communication strategy outlined for each year is based on the principles of transparency, rigour and consistency. This ensures that all relevant information is transmitted in a non-discriminatory, clear and complete manner to stakeholders.

Information Provided

Annually, and based on the above-mentioned principles, the Office draws up a Communication Plan for the Financial Market, which is included in the global communication strategy of Jerónimo Martins.

With the objective of transmitting an updated and clear vision of the strategies of the different business areas of Jerónimo Martins to the market, in terms of operational performance and outlook, the Investor Relations Office organises a series of events so that investors can learn about Jerónimo Martins' various businesses, its strategies and prospects for the future, and simultaneously follow the progress of activities during the year, by clarifying any doubts.

Throughout 2017, activities were carried out that allowed the financial markets to dialogue not only with the Investor Relations Office, but also with the Jerónimo Martins management team. The following are highlighted:

- meetings with financial analysts and investors;

- responses to e-mail questions addressed to the Investor Relations Office;
- telephone calls;
- release of announcements to the market through the CMVM (Portuguese Securities and Exchange Commission) extranet, through the Jerónimo Martins and Euronext Lisbon websites, and e-mail messages sent to all the Company's investors and financial analysts listed in the database created and updated by the Office;
- presentations to the financial community: presentation of results, roadshows, conferences and Annual General Shareholders' Meeting;
- organisation of visits to the operations in Poland and Colombia, with the management of the respective Companies;
- development and update of the investor relations webpage on the Company's institutional website.

In order to make information easily accessible to all interested parties, the communications issued regularly by the Office are available in full on the Jerónimo Martins' institutional website, at <https://www.jeronimomartins.com/en/>.

The site not only provides, in Portuguese and in English, mandatory information, but also general information about the Group and the Companies that form it, in addition to other information considered relevant, namely:

- announcements to the market about privileged information;
- annual accounts, including the Annual Report on the activities of the Audit Committee, six-month and quarterly reports of the Group;
- economic and financial indicators and statistical data, updated every six or twelve months, in accordance with the Company or business area;
- Jerónimo Martins' most recent presentation to the financial community, and historical collection;
- information about share performance on the stockmarket;
- the annual calendar of Company events, released at the beginning of every year, including, among others, General Shareholders' Meetings, the disclosure of annual, half-yearly and quarterly results;
- information about Corporate Governance;
- Code of Conduct of Jerónimo Martins;
- Company Articles of Association;
- current Internal Regulations;
- information regarding the General Shareholders' Meetings;
- minutes of the General Shareholders' Meetings, or respective extracts;
- historical agendas and decisions taken at the General Shareholders' Meetings held over the three previous years.

Contacts

The Office may be contacted through the Market Relations Representative and the Investor Relations Office Manager, Cláudia Falcão - and via the e-mail address: investor.relations@jeronimomartins.com.

The main contact information for the Investor Relations Office is as follows:

Address: Rua Actor António Silva, n.º 7, 1649-033, Lisboa
Telephone: +351 21 752 61 05

57. Market Liaison Officer

The Jerónimo Martins' Market Relations Representative is the Investor Relations Office Manager, Cláudia Falcão.

58. Data on the Extent and Deadline for Replying to the Requests for Information Received Throughout the Year or Pending from Preceding Years

Within the scope of issues addressed to the Investor Relations Office, during the course of 2017, 371 meeting contacts were recorded with investors and financial analysts and 443 requests for information sent via e-mail, or through telephone contact, to which was given an immediate reply to, or were responded to within an appropriate time for the type of request.

Subsection V Website

59. Address(es)

The Company's institutional website is available in Portuguese and English and can be accessed using the following address:

<https://www.jeronimomartins.com/en/>

60. Place Where Information on The Firm, Public Company Status, Headquarters and Other Details Referred to in Art. 171 CCC is Available

Information concerning Article 171 CCC is available on the Jerónimo Martins institutional website through the following link:

<https://www.jeronimomartins.com/en/contacts/>

61. Place Where the Articles of Association and Regulations on the Functioning of the Boards and/or Committees are Available

The Articles of Association and regulations on the functioning of the boards and/or committees are available on the Jerónimo Martins institutional website through the following link:

<https://www.jeronimomartins.com/en/investors/governance/articles-of-association-and-regulations/>

62. Place Where Information is Available on the Names of the Corporate Boards' Members, the Market Liaison Officer, the Investor Assistance Office or Comparable Structure, Respective Functions and Contact Details

The information in question is available on the Jerónimo Martins institutional website and may be accessed through the following links:

- Names of the Corporate Boards' Members:

Board of Directors:

<https://www.jeronimomartins.com/en/investors/governance/corporate-bodies/board-of-directors/>

Audit Committee:
