Section B ***Corporate Bodies and Committees***

Subsection I

General Meeting

A. Composition of the Presiding Board of the General Meeting

11. Details and Position of the Members of the Presiding Board of the General Meeting

On 14th April 2016, Abel Bernardino Teixeira Mesquita and Nuno de Deus Pinheiro were appointed as Chairman and Secretary of the General Shareholders' Meeting, respectively, for the term 2016-2018.

B. Exercising the Right to Vote

12. Restrictions on the Right to Vote

The Company and its Board of Directors particularly value the principles of free transferability of shares and assessment by shareholders of the performance of members of the Board of Directors.

As such Article Twenty Four of the Articles of Association of the Company establishes the rule that each share has the right to one vote.

Accordingly, the Company has not established mechanisms intended to cause mismatching between the right to receive dividends or the subscription of new securities and the voting right of each ordinary share, inter alia, no special rights for shareholders or restraints on the exercise of voting rights are provided for in the Company's Articles of Association, nor is there any special rule in the Articles of Association regarding

systems whereby the financial rights attached to securities are separated from the holding of securities.

Attending the Shareholders' Meeting is not subject to holding a minimum number of shares.

According to Article Twenty-Six of the Articles of Association of the Company, the Shareholders' Meeting may take place upon the first convocation, as long as more than 50% of the Company's capital is present or represented.

Participation in the General Shareholders' Meeting

Under the provisions of the Portuguese Securities Code and Article Twenty-Three of the Articles of Association, the shareholders that meet the following conditions can participate and vote at the General Meeting:

- i. On the Record Date, corresponding to 00:00 (GMT) of the fifth trading day prior to the General Shareholder's Meeting, they held shares of the Company entitling them to at least one vote;
- ii. By the end of the day prior to the day of the Record Date, they had stated in writing, to the Chairman of the General Shareholder's Meeting and to the respective financial intermediary, their intention to participate in the meeting;
- iii. By the end of the day of the Record Date, the respective financial intermediary has sent to the Chairman of the General Shareholder's Meeting information on the number of shares registered under that shareholder's name on the Record Date.

Postal Vote

According to paragraph three of Article Twenty-Five of the Articles of Association, postal votes are allowed. Pursuant to the Articles of Association, postal votes count for the formation of a constitutive quorum for the General Shareholders'

Meeting, and it is the responsibility of the Chairman of the Board of the General Shareholders' Meeting or his substitute to verify their authenticity and full compliance with the procedures, as well as to assure confidentiality when a vote is submitted. In the event that a shareholder or a shareholder's representative is present at the General Shareholders' Meeting, the postal vote that was issued is revoked.

Postal votes count as negative votes in relation to deliberative proposals presented subsequent to the date on which those votes were issued.

The Company has provided a form to exercise the right to vote by post on its web page.

As the Company's Articles of Association do not state anything on this matter, the Company has established a deadline of 48 hours prior to the General Shareholders' Meeting for receipt of postal votes, thus complying with and, to a certain extent, exceeding the recommendations of the CMVM on this matter.

Vote by Electronic Means

The Company, also recognising that using new technologies encourages shareholders to exercise their right to vote, has adopted, since 2006, adequate mechanisms so that they may vote electronically in General Shareholders' Meetings. Thus, shareholders must state their intent to exercise their right to vote electronically to the Chairman of the Board of the General Shareholders' Meeting, at the Company's Head Office or using the Jerónimo Martins website, at <https://www.jeronimomartins.com/en/>. In that expression of interest, shareholders must indicate the address of the financial intermediary with whom the securities are registered, to which a registered letter will be subsequently sent containing the electronic address to be used to vote, and an identification code to use in the electronic mail message by which the shareholder exercises its right to vote.

13. Maximum Percentage of Voting Rights That may be Exercised by a Single Shareholder or by Shareholders That are in Any Relationship as set out in Art. 20/1 PSC

The Company has not established rules stating that voting rights over a certain number are not counted, when issued by a single shareholder or shareholders related to it.

14. Details of Shareholders' Resolutions That, Imposed by the Articles of Association, may Only be Taken With a Qualified Majority, in Addition to Those Legally Provided

There is no special rule in the Articles of Association regarding deliberative quorums.

Subsection II Management and Supervision (Board of Directors)

A. Composition

15. Details of Corporate Governance Model Adopted

The Company has adopted the anglo-saxon governance model which corresponds to the option foreseen in subparagraph b) of Article 278 CCC. According to this model the management and supervision of the Company are organized through a Board of Directors, which includes the Audit Committee, and a Statutory Auditor.

16. Articles of Association Rules on the Procedural Requirements Governing the Appointment and Replacement of Members of the Board of Directors

The first Article of the Regulations of the Company's Board of Directors foresees that the composition of this body will be decided in the General Shareholders' Meeting pursuant to the terms indicated in paragraph one of Article Twelve of the Articles of Association, and that it will be presided over by the respective Chairman, chosen by the General Shareholders' Meeting.

Paragraph number three of Article nine of the same Regulations prescribes that in the event of death, resignation or impediment, whether temporary or definitive, of any of its members, the Board of Directors will agree on a substitute. If the appointment does not occur within 60 days of the absence of the Director, the Audit Committee will be responsible for appointing the substitute.

Diversity Policy

In Portuguese company law, the shareholders have exclusive competence to appoint the members of management and supervision bodies of companies.

Hence, considering that the shareholders are not to be confused with the Company, it is not possible for the latter to define or enforce a diversity policy as is foreseen in Art. 245-A, no. 1, r) of the Portuguese Securities Code, as amended by Decree-Law no. 89/2017, of 28th July.

In addition, the recent and late entry into force of Decree-Law no. 89/2017 still did not allow the shareholders to ponder and, wanting, to take expressly into consideration in elective procedures diversity concerns, which are underlying in the rules at stake (the first elective shareholder's general meeting after the entry into force of the said Decree-Law will only take place, foreseeably, on 2019).

This does not mean, however, that in selecting the members of management and supervision bodies of the Company (respectively, Board of Directors and Audit Committee), the shareholders do not take into account diversity criteria that seek to combine the individual attributes of each of the members, such as independence, integrity, experience and competence, with the specific characteristics of the Company, e.g., its governance model, its dimension, its shareholder structure and its business model.

It can even be said that, in the current structure of the Board of Directors and of the Audit Committee, the shareholders have safeguarded the gender diversity (notwithstanding compliance with the legislation on that subject that the Company will have to comply with from 2019 on), age diversity, qualification diversity and professional background diversity, as can be seen in point 1.3.1. of Chapter 1, and in points 17 to 19, and 26 of Chapter 3 of this document.

17. Composition of the Board of Directors

According to the Articles of Associations, the Board of Directors is comprised of a minimum of seven and a maximum of eleven members, elected by the General Shareholders' Meeting for three year terms. During 2017, the Board of Directors had the composition indicated below, being currently composed of nine effective members, who were elected at the General Meeting held on 14th April 2016 for the term of office 2016-2018:

18. Distinction Between Executive and Non-Executive Directors and, as Regards Non-Executive Members, Details of Members that may be Considered Independent

The Company seeks a balance in the composition of the Board of Directors through the integration of Non-Executive Directors and Independent Directors alongside the Executive Director, in the scope of a delegation of duties, the respective discrimination of which being referred in point 17, above. The distinctive criterium used by the Company coincides with that of the EU Commission's Recommendation 2005/162/EC, of 15th February 2005, being considered as Executive Director any member who is engaged in the daily management of the Company and, *a contrario sensu*, Non-Executive Directors are those who are not engaged in the daily management.

The Board of Directors is therefore composed of Non-Executive Directors, in particular Independent Directors who possess a wide range of technical skills, contact networks and connections with national and international bodies, who therefore enrich and optimise the Company's management in terms of creating value and ensuring adequate protection of the interests of all its shareholders, thereby ensuring effective monitoring, supervision and assessment of the activity of the remaining members of the Board of Directors.

In accordance with the principles by which the Company is run, although all Board Members are accountable to all shareholders equally, the independence of the Board of Directors in relation to the shareholders is further reinforced by the existence of Independent Board Members.

Pursuant to the 2013 CMVM's Recommendations on Corporate Governance, hereafter referred to as "2013 CMVM's Recommendations", considering

the provision of recommendation II.1.7, which establishes the independence criteria to be used in the evaluation made by the Board of Directors, Francisco Seixas da Costa, António Viana-Baptista, Clara Christina Streit, Sérgio Rebelo and Hans Eggerstedt qualify as Independent Directors. The latter three Directors are also members of the Audit Committee and therefore they are subject further to the independence criteria indicated in paragraph 5 of Article 414 CCC. According to these criteria, Director Hans Eggerstedt cannot be regarded as independent. Each of the members of the Audit Committee also complies with the rules of incompatibility laid down in paragraph 1 of Article 414-A CCC, except that provided for in sub-paragraph b).

Being the number of Independent Directors of four, in accordance to the criteria above mentioned, out of a total of nine Directors, the Company complies with recommendation II.1.7. (2013 CMVM's Recommendations), also in the part where it establishes that Non-Executive Directors shall include an appropriate number of independent members (*in casu*, half of such Directors).

Subsection III **Internal Control and Risk Management**

50. Individuals, Boards or Committees Responsible for the Internal Audit and/or Implementation of the Internal Control Systems

The Internal Control objectives involve the assurance of the operational efficiency, the financial and operational reporting consistency and the fulfilment of applicable laws and regulations. To assure it, the Internal Audit activity plan takes in consideration the evaluation of the operational risks and the critical processes applicable to each Company.

The results of the internal audits are made available, on a monthly basis to the Internal Control Committee and to the Group's Managing Committee. 52. Other Functional Areas Responsible for Risk Control

a) Enterprise Risk Management System

The Group, and in particular its Board of Directors, dedicates a great deal of attention to the risks affecting the businesses and their objectives, and is committed to ensure that Risk Management is an effective and fundamental component of the corporate strategy, culture and value-creation process.

The approach to Risk Management is detailed in the Group's Risk Management Policy, which sets out the Group's Enterprise Risk Management System and outlines the roles and responsibilities of the persons responsible for its execution.

a.1) Risk Management Objectives

The aim of the Group's Enterprise Risk Management System is not to eliminate risk completely from the Group's activities, but rather to ensure that every effort is made to manage risk appropriately, maximising potential opportunities and minimising the adverse effects of risk.

The Group's Enterprise Risk Management System has the objectives to structure and consistently organise the way the Group identifies and evaluates risks, assuring that they are assessed broadly, considering dependencies and correlations among various risks areas and also promoting alignment of the

process across the organization. It establishes procedures for reporting that allow for an adequate monitoring of the risk mitigation and control measures.

Due to the size and geographical dispersion of Jerónimo Martins' activities, successful Risk Management depends on the active participation of all employees, who should assume this as an integral part of their jobs, particularly through the identification, reporting and mitigation of risks associated within their area of responsibility. Therefore, all activities must be carried out with an understanding of what the risk is, with an awareness of the potential impact of unexpected events on the Company and its reputation.

The Group is committed to ensuring all employees are provided with adequate guidance and training on the principles of Risk Management, on the criteria and processes set by the Risk Management Policy and on their responsibilities to manage risks effectively.

a.2). Organisation of Risk Management

The Risk Management Governance Model is defined in order to ensure the effectiveness of Risk Management Framework and is aligned with the Three Lines of Defence Model, which distinguishes among three groups (or lines) involved in effective Risk Management, namely:

- Second Line of Defence (Oversight/ Compliance Functions: Group and Business Unit Risk Managers) – responsible for the Risk Management analysis and reporting, as well as for suggestions or policies development that improve the efficiency of Risk Management processes. This second line also includes functions such as Financial Control, Security, Quality & Food Safety, amongst other corporate areas;

- Third Line of Defence (Independent Assurance: Internal Audit and External Audit) – responsible for providing assurance on the effectiveness of governance, Risk Management and internal controls, including the manner in which the first and second lines of defence perform their Risk Management and control objectives.

The Risk Management organisational structure considers the following main roles and responsibilities:

- the Board of Directors is responsible for establishing the Risk Management Policy and strategy and for setting goals in terms of risk-taking. It is also the Board's responsibility to provide for the creation of control systems necessary to ensure that the risks effectively incurred are consistent with the goals set;
- the Audit Committee approves the activity plans with regard to Risk Management, monitors their execution and assesses the effectiveness of the internal control, internal auditing and risk management system;
- the CEO, assisted by the Managing Committee, ensures the implementation of the Risk Management Policy and strategy as established by the Board of Directors, as well as promotes a risk awareness culture in the organisation ensuring that Risk Management is embedded in all processes and activities;
- the Risk Committee assists and advises the Managing Committee, as the CEO's assisting body, in assessing and monitoring the mitigating measures for the different types of risk, and ensuring the existence of an effective Risk Management framework, that ensures a level of risk exposure compatible with the objectives and strategies approved by the Board of Directors;
- the Group Risk Management Division (GRM) is responsible for the implementation of the Risk Management framework, coordination of all Risk Management activities and for supporting the Managing Committee and the Risk Committee in the identification of risk exposures

that might compromise the Group's strategic and business goals. GRM is also responsible for the coordination and alignment of the practices adopted by the Companies in the Business Continuity Plans (BCP);

- the Business Unit Risk Managers are responsible for the implementation of Risk Management initiatives at the Company level and to support the respective Risk Owners activities;
- the Risk Owners are all employees in charge of the execution and/or control over a given process or activity, within a business unit or a corporate structure, which are responsible for managing the risks involved in those activities;

53. Details of the Major Risks to Which the Company is Exposed in Pursuing its Business Activity

Strategic Risks

Strategic risk management involves monitoring factors such as social, political and macro-economic trends: the evolution of demographics, consumers' preferences, the life cycles of the businesses, the dynamics of the markets (financial, employment, natural and energy resources), geopolitical situation, the activities of competitors, technological innovation, availability of resources, legal and regulatory changes and social scrutiny of the Group's business activities.

The management team uses this information to understand market needs and attempts to identify any opportunities and threats in the industries and sectors in which it operates, namely in terms of potential profitability and growth, but also in terms of both the strategic alignment and

appropriateness of its business model in light of current and future conditions.

Operating Risks

Derives from the execution of normal business functions, across the value chain, and focuses on risks arising from the processes through which the Group units operate.

The operational risks cover risks related to category management and sourcing, stock management, cash management, logistics and supply chain and the efficiency in the use of resources and assets as well as their safety and security.

Fraud, money laundering and corruption risks are also considered in the risk assessment for the most relevant operational activities. The adequacy and range of the controls and mitigation measures are also reviewed and reconsidered whenever necessary.

Food Quality and Safety

The Group seeks to provide healthier products and food solutions, and it seeks to ensure and enforce product safety measures in strict compliance with food safety standards.

The Quality and Food Safety Departments of the Companies are responsible for the following areas: i. prevention, through selection, assessment, and follow-up audits on suppliers; ii. monitoring, by following the product throughout the whole logistics flow, to analyse compliance with best practice and certification requirements; and iii. training, by carrying out periodic simulations and awareness initiatives.

The Companies are monitored continuously by quality control technicians, to ensure the implementation of procedures and to assess the efficiency of training and the suitability of the facilities and equipment.

Environmental Risks

Ensuring the efficient management of resources, while promoting environmental preservation, is essential for the sustained growth of the Jerónimo Martins Group's businesses. Considering the size of its Companies, the Group has been conducting studies on the impacts of such activities on ecosystems and on the services and the resources they provide, in the following areas: i. Impacts of the Group's Companies activities on biodiversity and dependency on ecosystem services; ii. Agricultural management practices focused on water and energy consumption, biodiversity and economic management; iii. Risk analysis on fish sold in Group's stores; iv. Analysis of risks and opportunities associated with the impacts of climate change on Group's activities; and v. Mapping of deforestation commodities, their origins and production methods in Private Brand products and Perishables.

As a result of the studies about biodiversity management, priority action areas have been identified, which entail practices such as training, partnerships with suppliers, and research and development. This is the case of the work that has been developed with suppliers in Portugal which led to the publication of a Sustainable Agriculture Manual and the corporate sustainable fishing strategy that defines specific lines of action according to the identified risk categories¹.

Regarding both climate change risks and those associated with deforestation commodities, the following typologies were identified:

- Regulatory, which can be a result of increased costs of compliance with environmental legislation;
- Physical, which may result in shortage of natural resources, such as agricultural products, or disruption of supply chain activities associated with climatic events;
- Reputational, associated with expectations of the Group's stakeholders to reduce carbon emissions and contribute to tackle deforestation.

¹ To find out more about the actions carried out by the Group in this area, please refer to subchapters "Protecting the Environment" and "Sourcing Responsibly", respectively, in the "How we make a difference" chapter of the current document.

The probability of occurrence of these situations and their level of impact, including financial risks, as well as their management, are analysed by the Group as part of its risk assessment procedures. Considering the risks posed by climate change, particularly, the Group discloses its review in the annual response to CDP (Carbon Disclosure Project), for the programs Climate and Forest, which are available at <https://www.cdp.net>.

The Security Department is responsible for ensuring that conditions exist to guarantee the physical security of people and facilities.

Physical security and people risk management involves defining and publicising working standards and instructions, carrying out employee awareness initiatives and training, performing audits on the stores, risk assessment in all establishments and performing emergency simulations.

54. Description of the Procedure for Identification, Assessment, Monitoring, Control and Risk Management

The Group's Risk Management framework assumes a continuous process of risk assessment, which is an integral part of the normal decision-making and management processes.

The Risk Management process is aligned with the ISO 31000 international standard recommendations and seeks mainly to distinguish what is irrelevant from what is material, requiring an active management which involves the assessment of sources of risk, the probability of occurrence of a certain event, and the consequences of its occurrence within the context of the control environment.

The Group prepares and maintains an overall risk profile that lists all relevant operational and strategic risks, as well as the corresponding implemented mitigation and control mechanisms. The list is updated regularly with information from the on-going risk assessment processes.

A global annual review is made under the coordination of the Group's Risk Management Corporate Division, as part of the strategic and operational planning processes, so that the information related to the most relevant risks is duly updated and considered during the planning process. This process triggers the development of the alternatives under analysis as well as the identification of new activities that strengthen the defense of the directed objectives.

Section D Remuneration

Subsection I Power to Establish

66. Details of the Powers for Establishing the Remuneration of Corporate Boards, Chief Executive and Directors of the Company

Within the terms of Article Twenty-Nine of the Company's Articles of Association, the remuneration of the Statutory Bodies is set by the Shareholder's Meeting, or by a Committee nominated by the latter. Within the scope of the latter possibility, the shareholders of Jerónimo Martins decided to nominate the Remuneration Committee to set the remuneration of the Members of the Statutory Bodies.

The Remuneration Committee is elected for a three year term, being the present term comprised between years 2016-2018.

The remuneration of the Company's management is decided by the respective Board.

Subsection II Remuneration Committee

67. Composition of the Remuneration Committee, Including Details of individuals or legal persons recruited to Provide Services to Said Committee and a Statement on the Independence of Each Member And Advisor

At the General Shareholders' Meeting held on 14th April 2016 Elizabeth Bastoni (co-opted Chairman), Erik Geilenkirchen and Jorge Ponce de Leão² were elected to this Committee, for the term in force.

None of the Members of the Remuneration Committee is a member of the Board of Directors of the Company, or has a spouse, family member or relative in such a position, nor do they have relationships with the Members of the Board of Directors that may affect their impartiality in the performance of their duties.

During 2017, no individual or legal person was hired to support the Remuneration Committee in the performance of its duties.

68. Knowledge and Experience in Remuneration Policy Issues by Members of the Remuneration Committee

The Members of this Committee have extensive knowledge and international experience in management and remuneration policy, which gives them the necessary skills to perform their duties adequately and effectively.

Elizabeth Bastoni holds several degrees from different Universities, having started her career in tax consultancy with specialization in expatriates taxation. She also worked in Thales as VP – Professional Development, Compensation and Benefits, and as Head of HR. She was Head of Global Compensation and Benefits of The Coca-Cola Company, EVP and Chief HR and Communications Officer of Carlson, Chief HR Officer of BMGI (Bill and Melinda Gates Investments), Member of the Board of Directors and Chair of the Compensations Committees of Carlson Wagonlit Travel and of The Rezidor Hotel Group, as well as Member of the Board of Directors of the Human Resources Association WorldatWork. Currently she is a Non-Executive Director and member of the Compensation and Nomination Committee of Société BIC.

² Jorge Ponce Leão resigned already in January 2018 due to exclusivity obligations deriving from his appointment as executive manager of a State-owned company.

Erik Geilenkirchen holds a Masters in Mechanical Engineering. Since 1989 his professional activity has been focused in HR, having worked in Hay Group for nine years, and, afterwards, in Ahold Group as VP Human Resources (Asia/Pacific), SVP (Asia/Pacific) at Group Philips with focus in HR and Chief Human Resources Officer at Cofra Holding. He is the founder of "IntelligentBoardRoom.com".

Jorge Ponce de Leão has a Law degree, having worked in the Labor Law area since the beginning of the 70's as external legal advisor, as well as in-house in some Portuguese companies. He worked as Head of Legal and Tax Services (Jerónimo Martins Group – industrial area), and was appointed Member of the Board of Directors of the Company during the 1990's. He also held management duties in the HR area of Radiotevisão Portuguesa, was CEO of SAIP SGPS and Chairman of the Board of Directors of ANA – Aeroportos de Portugal.

To better understand the business and the Company's culture and values, the members of the Remuneration Committee had the chance to visit the Operations of the Group in the several countries where it operates. This was deemed important by this Committee to make sure that the remuneration policies and processes of corporate bodies, particularly the one of Directors with executive duties are effectively aligned with the business' strategy and with the rest of the Organization.

Subsection III Remuneration Structure

69. Description of the Remuneration Policy of the Board of Directors and the Supervisory Board

The Remuneration Committee was of the opinion that there was no justification for major changes to the basic principles that have been the core of

the Corporate Bodies Remuneration Policy, which should continue having in attention the current legal and recomendatory framework, as well as the organisational model adopted by the Board of Directors.

With respect to the organisation of the Board of Directors, the Remuneration Committee has especially taken into account the following characteristics:

- the existence of a Chief Executive Officer with delegated duties regarding the day-to-day management of the Company, as well as of a Director or Directors to whom the Board have entrusted or may entrust special duties;
- the participation of Non-Executive Directors in Specialised Committees, who are therefore called to devote increased time to Company's affairs.

Considering the said organisational model the Remuneration Committee understands that there are no grounds justifying any major changes in the principles that have been adopted as to the Corporate Bodies Remuneration Policy.

In fixing the remuneration for the Corporate Bodies in 2017, and in order to guarantee that the Company pay levels are adequate and in line with the international market practices, as this is the landscape where the Company operates, the Remuneration Committee relied on benchmark studies³. Such studies included not only other companies in the PSI 20, but also other listed european international peers working in the same sector, bearing in mind the said characteristics of the Company.

The remuneration of Directors with executive duties continues to comprise a fixed and a variable component, that together guarantee a competitive remuneration in the market and which also serve as a motivating element for high individual and collective performance, allowing ambitious targets for accelerated growth and the appropriate shareholders remuneration to be set and achieved.

³ Based on publicly available information and on documents published by specialized consultancy firms.

Annually, the variable component is fixed by the Remuneration Committee, taking into account the expected contribution of Directors with executive duties to results, shareholder value creation (EVA), evolution of share prices, the work carried out during the preceding financial year, the degree of achievement of the projects integrated on the Group's Strategic Scorecard, as well as the criteria applied in the attribution of variable remuneration to the remaining Managers.

The Remuneration Policy continues seeking to reward the Directors with executive duties for the sustained performance of the Company in the long-term, and the safeguarding of the interests of the company and shareholders within this period of time. For this reason, the variable component takes into account the contribution of the Directors with executive duties to the conduct of business namely through the achievement of EVA objectives set out in the Medium and Long-Term Plan approved by the Board of Directors and the implementation of a series of projects across the Group's Companies, which, having been identified by the Board of Directors as essential to ensure future competitiveness, have a time scale that may exceed one calendar year, being the Directors with executive duties responsible for each compliance stage, in the scope of their duties.

The variable remuneration is, as already noted, dependent on predetermined criteria, objectives and targets to be fixed at the start of each year by the Remuneration Committee, which take into consideration the Company's real growth, the wealth created for shareholders and long-term sustainability.

Bearing in mind the contribution of the several countries and business areas where the Group operates to total turnover and consolidated results, the Remuneration Committee considers adequate that the payment of the fixed and variable components of remuneration to Directors with executive duties be split amongst the Company and its subsidiary companies where such Directors are also members of the management body, according with a ratio to be determined by this Committee.

As regards the deferral of part of the variable component of the remuneration, the Remuneration Committee conducted a study on the subject in 2011 without reaching a conclusion about the advantages or inconveniences of its adoption, considering that the manner in which the remuneration of the Directors with executive duties is structured is adequate and ensures full alignment of their interests with those of the Company in the long-term. For the same reason, the Remuneration Committee deems unnecessary to determine the maximum potential amount, in aggregate and/or individual terms of remuneration to be paid to Members of Corporate Bodies. Furthermore, the Committee considers that the Remuneration Policy of the Company is aligned with the remuneration practices of its counterparts within the PSI20, bearing in mind the characteristics of the Company.

The Company did not enter into any contracts with its Directors which mitigate the risk inherent to the remuneration variability set by the Company, nor is the same aware that any such contracts have been entered into between its Directors and third parties.

The absence of a deferral period for the variable component makes it unnecessary to have mechanisms to prevent the execution of contracts by Executive Directors that subvert the rationale of variable remuneration.

The remuneration of the members of the Audit Committee as well as the remuneration of Directors with non-executive duties continues to comprise a fixed component only.

With respect to Directors with non-executive duties who are part of Specialised Committees (whether or not exclusively composed of Directors), the Remuneration Committee considered it appropriate to continue the attribution of meeting fees, bearing in mind that the duties performed within those Committees demand additional availability from the respective member Directors.

Similarly, with respect to Directors with non-executive duties who take part of supervisory bodies of the Company's subsidiaries, bearing in mind that such duties arise from the exercise of their functions as Directors, the Remuneration Committee considered appropriate to attribute to them meeting fees.

As established by the Remuneration Committee in 2010, life and health insurance fringe benefits continued for Directors with executive duties.

The Statutory Auditor is remunerated in accordance with the auditing services agreement signed with the Jerónimo Martins Group, which covers almost all its subsidiaries. This remuneration shall be in line with market practices.

The Retirement Pension Plan for Executive Directors was approved at the 2005 Annual General Meeting, which is described in point 76.

This Remuneration Policy was subject to discussion at the Annual General Shareholders' Meeting held last year.

70. Information on how Remuneration is Structured so as to Enable the Aligning of the Interests of the Members of the Board of Directors With the Company's Long-Term Interests and how it is Based on the Performance Assessment and how it Discourages Excessive Risk Taking

As results from the Remuneration Policy described in point 69, remuneration is structured in a way that allows alignment between the interests of the Board Members with the long-term interests of the Company.

The existence of fixed and variable components of remuneration, the fact that the variable remuneration is fixed depending on the verification of several objective factors, e.g., the real growth of the Company, the wealth created for shareholders, the implementation of projects across the Group's Companies which ensure the future competitiveness of businesses and long-term sustainability, cause that management's evaluation is made taking into attention the interests of the Company and its shareholders not only in the short term, but also in the middle and long-term.

Within the parameters of the remuneration policy in force, and to ensure alignment with market best practices, the Remuneration Committee deemed adequate to review the process of defining targets and assess performance for Directors with executive duties, namely the Chief Executive Officer, having followed-up the progress in both qualitative and quantitative targets on a quarterly basis. It also defined clear and measurable qualitative targets, namely by getting access to ESG (Environmental, Social and Governance) reports.

Based on a rigorous and thorough analysis of multiple sources of evidence both internal and independent, the Remuneration Committee followed closely the progress of several performance indicators, both quantitative (sales growth, net earnings, EVA and gearing) and qualitative (strategic path and resources allocation / investments, organizational health and talent management, and multi-stakeholder relations).

As referred in point 69, the Company did not enter into any contracts with its Directors which intend to mitigate the risk inherent to the variability of remuneration set by the Company.

71. Reference to the Existence of Variable Remuneration Component and Information on any Impact of the Performance Appraisal on This Component

The remuneration of Directors with executive duties is comprised of a variable component depending, also, of a performance review depending on the effective delivery of the objectives and targets, measured by the behaviour of the quantitative and qualitative indicators.

See points 69 and 70.

72. Deferred Payment of the Remuneration's Variable Component and Specification of Relevant Deferral Period

There is no deferred payment of the remuneration's variable component. See point 69.

73. Criteria Whereon the Allocation of Variable Remuneration on Shares is Based, and Also on Maintaining Company Shares that the Executive Directors Have Had Access to, on the Possible Share Contracts, Hedging or Risk Transfer Contracts, the Corresponding Limit and its Relation to the Total Annual Remuneration Value

The Company does not have any type of plan for attribution of shares to Directors and officers, as defined in no. 3 of Article 248-B PSC.

74. Criteria Whereon the Allocation of Variable Remuneration on Options is Based and details of the Deferral Period

The Company does not have any plan for the attribution of share purchase options to Directors and officers, as defined in no. 3 of Article 248-B PSC.

75. Key Factors and Grounds for Any Annual Bonus Scheme and Any Additional Non-Financial Benefits

See points 69 to 71. Directors with executive duties receive also life and health insurance fringe benefits.

76. Key Characteristics of the Supplementary Pensions or Early Retirement Schemes for Directors and Date When Said Schemes Were approved at the General Shareholders' Meeting, on an Individual Basis

At the 2005 Annual General Meeting, a Retirement Pension Plan for Executive Directors was approved.

It is a Defined Contribution Pension Plan, in which the value of the contribution is fixed in advance – the percentage of the monthly deduction for the Fund is currently 17.5% – the value of the benefits varying depending on the earnings obtained. The Remuneration Committee defines the contribution rate of the Company and the initial contribution.

Plan Participants, as defined in the respective regulation, include the Executive Directors of the Company. In the specific case of Executive Directors in office at the time of the 2005 General Meeting, those who opted for the current Pension Plan would forego eligibility for the Alternative Pension Plan, by way of expressly and irrevocably waiving it.

The retirement date coincides with the day itself or the first day of the month following the month in which the Participant reaches normal retirement age, as established into the General Social Security Scheme. A Participant will be considered to be in a state of total and permanent invalidity if recognised as such by the Portuguese Social Security.

The pensionable salary is the gross monthly salary paid by the Company and any of its direct or indirect subsidiary companies, multiplied by 14 and divided by 12. To this fixed monthly amount is added, at the end of each calendar year, a variable amount comprising all the amounts received as variable remuneration from said Company and subsidiary companies.

Additionally, concerning Directors who were in office at the date of the said 2005 General Meeting, the complementary pension or retirement system regime applies, and under the terms of the respective Regulation, Directors have the right to a Complementary Pension at retirement age, cumulatively, when they: i. are over 60 years old; ii. have performed executive functions; and iii. have performed the role of a Director for more than 10 years. This supplement was established in the 1996 Annual General Shareholders' Meeting and only those Directors that have not opted for the Retirement Pension Plan mentioned above may benefit from this supplement.

In light of the text of the recommendations, the following recommendations, also referenced in the table above, were not fully complied with. The corresponding explanations are detailed below.

- a) With respect to **subparagraph b)** of **recommendation II.3.3.**, it is important to explain that the matter concerning the remuneration of Directors, including the setting of maximum limits for all the components of the remuneration, depends exclusively on the Remuneration Committee, which is a Committee appointed by the General Shareholder's Meeting and independent of the Board of Directors. Thus, the full compliance with the referred recommendation is within the exclusive competence of the Remuneration Committee. The latter decided not to follow the recommendation, as it recognised that the manner in which the remuneration of Executive Directors is structured is adequate and allows the alignment between the interests of Executive Directors and those of the Company in the long term, being in line with the remuneration practices of similar companies, taking into account the characteristics of the Company.
- b) Regarding **recommendation III.3.**: see explanation in the preceding subparagraph.
- c) In relation to **recommendation III.4.**, it should be noted that the Company's Remuneration Policy does not provide for the deferred payment of all or part of the variable component of remuneration, and the Remuneration Committee believes that it has

found, thusfar, the mechanisms that allow the alignment of the interests of the Executive Directors with the long-term interests of the Company and the shareholders, enabling the sustained growth of the Company's business and the corresponding value creation for the shareholders.

- d) As regards **recommendation IV.2.**, it is important to explain that in 2011 the Audit Committee established the rules concerning the provision of consultancy services by the External Auditor. These rules determine:
 - i. the possibility of contracting those services, if the auditor's independence is assured; and
 - ii. the obligation to obtain prior approval of the said Committee, from the moment the global amount of fees related to this type of services in that year surpasses 10% of the global amount of fees concerning audit services.
 The Audit Committee considers that the provision of non-audit services up to the said amount of 10% does not compromise the auditor's independence. Furthermore, the Committee considers this solution as the most appropriate to the Group's geographical multi-location and to the specific needs of its subsidiaries set up in other jurisdictions.
